

SCOTT SAWYER – Private Music & Guitar Instruction

I value clear communication; please read all that follows and know that I am happy to address any questions or concerns that you may have.

When possible, I encourage most students to take a weekly lesson. I've observed that weekly students typically advance more quickly, even when they've had limited time to practice.

CANCELLATION POLICY

- I do not issue refunds or "rollover payment" for missed sessions to a subsequent month.
- I'll make up missed sessions when notified one day in advance of scheduled session. Please phone me 1st (no later than 11pm, leave a message if necessary) and follow up with an e-mail.
- Genuine "day-of-session emergency cancellations" (*including illness*) will receive special consideration; *one per calendar month only*.

I'll make up missed sessions by:

- Scheduling additional session(s) as time allows.
- When possible, adding missed time onto subsequent "paid-for" sessions(s).

Missed sessions that have been paid for must be made-up/rescheduled within 60 days or they will be forfeited.

- Advance Payment guarantees your place on my schedule.

Advance payment is due for the coming month on the last session of the current month.
